VACANCY

INTERIM EXECUTIVE MANAGER: INFRASTRUCTURE PLANNING AND DEVELOPMENT

GRADE 22 (TOTAL COST TO COMPANY)

18 MONTH CONTRACT

The role entails overseeing and directing the sourcing, planning and rollout of infrastructure programmes on behalf of public sector and partner institutions and internal ECDC infrastructure projects. The incumbent is expected to drive the enlisting of the ECDC as an infrastructure programme management partner by national, provincial, local government, and other partner institutions relating to social, economic, and basic services infrastructure. Functional areas relating to role include business development, infrastructure programme delivery management systems, infrastructure development planning, infrastructure programmes execution and monitoring, client and stakeholder relations management, and contract management. The incumbent shall also be responsible for overseeing revenue collection for services rendered, creating a sustainable revenue stream, and managing the service in a commercially sound and development-oriented manner. The operations of the business unit are required to contribute to funding of the development mandate of the Corporation. The incumbent shall also be expected to pursue external funding for infrastructure development from local, national and international sources including the national treasury's budget facility for infrastructure (BFI) and Infrastructure, South Africa. The executive shall also be responsible for providing overall strategic leadership and management of resources within the unit and to contribute to the broader attainment of the ECDC objectives.

MINIMUM REQUIREMENTS

- A bachelor's degree in relevant built-environment and a relevant post graduate degree. Accreditation as a professional civil or structural engineer, architect, or quantity surveyor will be a strong advantage.
- Understanding of public sector infrastructure programme management frameworks.
- Professional certification in project management or supply chain management would be an added advantage.
- A minimum of 10 years working experience in the built environment of which at least 5 years must be in a senior management or portfolio management role.
- Experience in managing the planning, procurement, delivery, and monitoring of infrastructure construction is a must.
- Experience in the implementation of the National Treasury Standard for Infrastructure Procurement and Delivery Management (SIPDM) would be an added advantage.

This is an 18 month contract position, and the successful candidate will be subjected to signing of a performance contract and verification of qualification. Retired professionals and executive managers are encouraged to apply. If you have not been contacted within eight (8) weeks after the closing date of the advertisement, please regard your application as unsuccessful.

In making these appointments, the ECDC reserves the right to apply the principles enshrined in the Employment Equity Act, its policies, and plans.

Please send your detailed CV and certified copies of qualifications to
